

ONGUARD BULLDOG MINI LS £23.99

MINI LOCKS ARE a good choice if portability is what you need, and a bonus is that the mini shackles they normally come with are difficult to lever because it's easy to fill up the gap. That said, as long as you fill the Bulldog's long shackle then it's pretty difficult to lever too, and OnGuard backs the Bulldog with a £500 guarantee. It comes with a mount bracket, five keys (one with a light) and the keys are coded for replacing.
